

AI and Fundraising

Let's Get Real

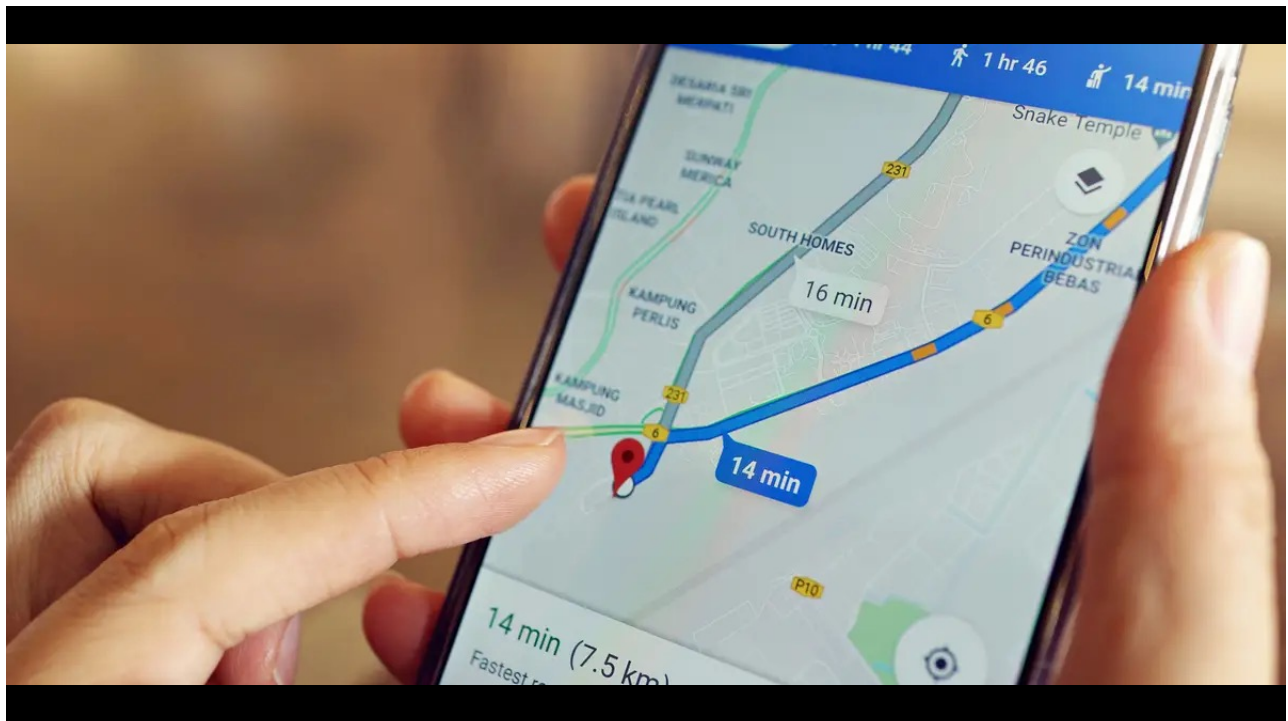

Josh Birkholz

Josh Birkholz
CEO, BWF
Chair, Giving USA Foundation

Presenter

- CEO of BWF, the nonprofit service and technology company known for its innovations in elevating philanthropy around the world
- Leader in big philanthropy and an architect of the business of fundraising
- 25+ years in the charitable sector, has led the establishment of data science in fundraising, developed high ROI operational infrastructure, guided fundraising through challenging economic conditions, and crafted authentic approaches to high net-worth giving
- Author of the books "Fundraising Analytics" and "Benefactors"
- Contributor to the books "A Kaleidoscope of Prospect Development" and "Return on Character."
- Chair of the Board of the Giving USA Foundation
- Instructor at the Rice University Center for Philanthropy and Nonprofit Leadership
- Earned the Crystal Apple Award for Teaching Excellence from CASE and the Apra Visionary award for his innovation in applying data science to fundraising

The Internet? Bah!

Hype Alert: Why cyberspace isn't, and will never be, nirvana

By CLIFFORD STOLL

AFTER TWO DECADES ONLINE, I'M PERPLEXED. It's not that I haven't had a gas of a good time on the Internet. I've met great people and even caught a hacker or two. But today I'm uneasy about this most trendy and oversold community. Visionaries see a future of telecommuting workers, interactive libraries and multimedia classrooms. They speak of electronic town meetings and virtual communities. Commerce and business will shift from offices and malls to networks and modems.

pretense of completeness. Lacking editors, reviewers or critics, the Internet has become a wasteland of unfiltered data. You don't know what to ignore and what's worth reading. Logged onto the World Wide Web, I hunt for the date of the Battle of Trafalgar. Hundreds of files show up, and it takes 15 minutes to unravel them—one's a biography written by an eighth grader, the second is a computer game that doesn't work and the third is an image of a London monument. None answers my question, and my search is periodically interrupted by messages like, "Too many connections, try again later."

Won't the Internet be useful in governing? Internet addicts clamor for government reports. But when Andy Spano ran for county executive in Westchester County, N.Y., he put every press release and position paper onto a bulletin board. In that affluent county, with plenty of computer companies, how many voters logged in? Fewer than 30. Not a good omen.

What is AI?

Using computers to solve problems and make decisions in ways similar to human intelligence.

Two Categories

1. Predictive AI

Using data to make decisions, predict outcomes, and recommend solutions.

Two Categories

1. Predictive AI

Using data to make decisions, predict outcomes, and recommend solutions.

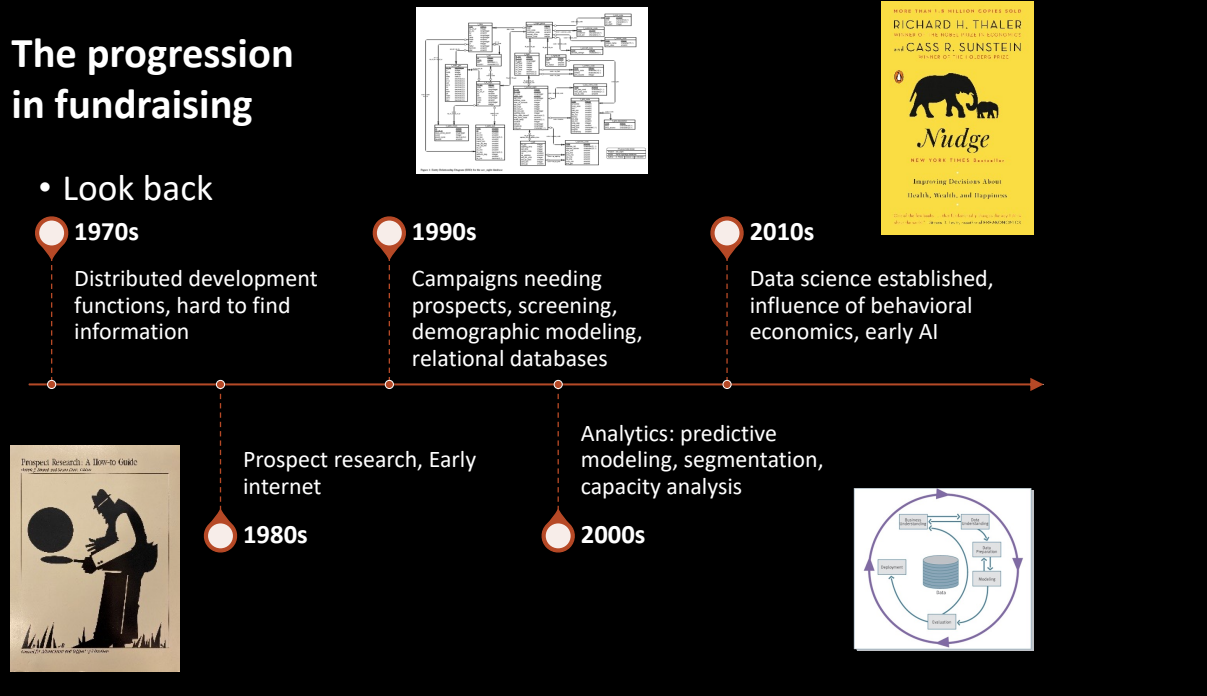

2. Generative AI

Create new content including images, music, text, computer code, etc.

Early Modeling a Forerunner to Predictive AI

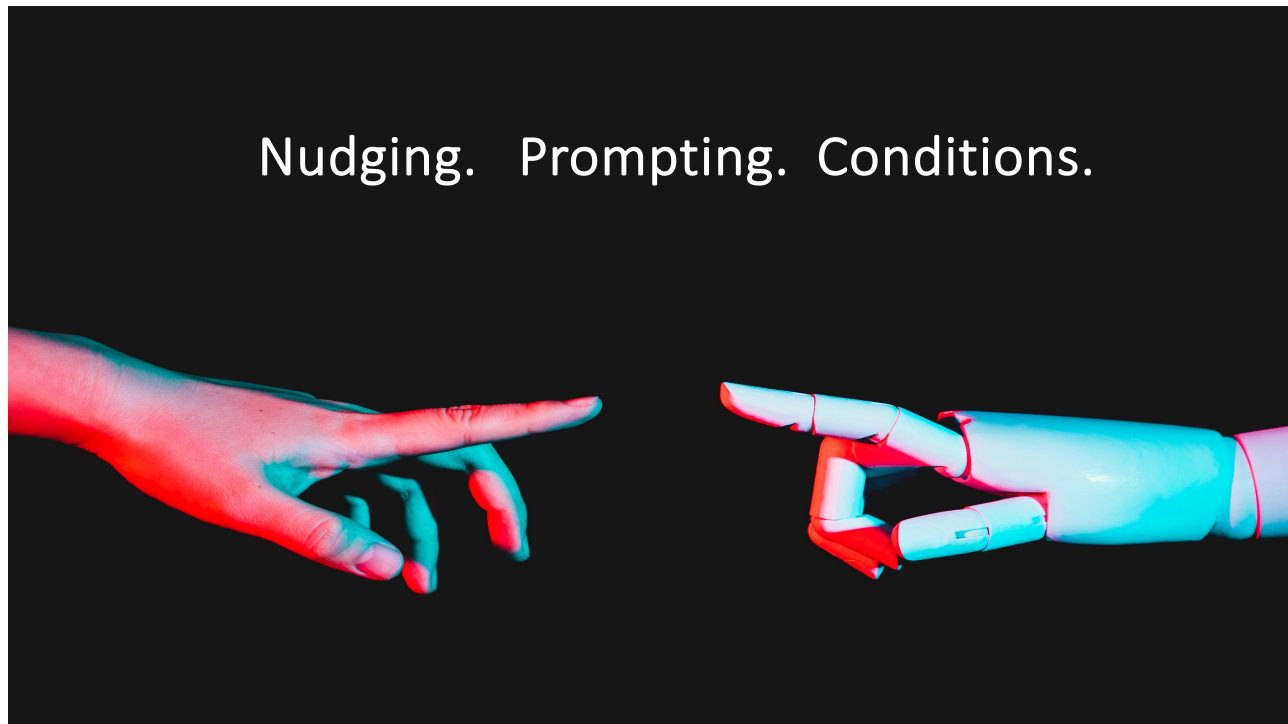

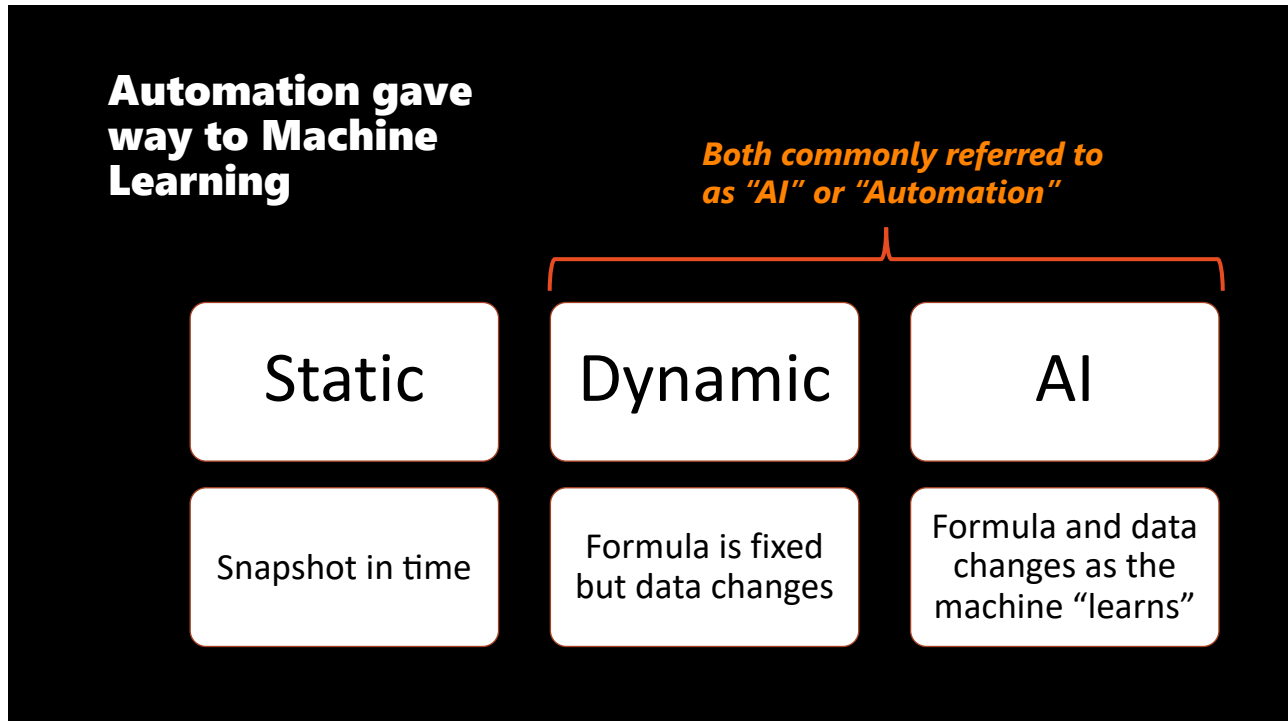

From

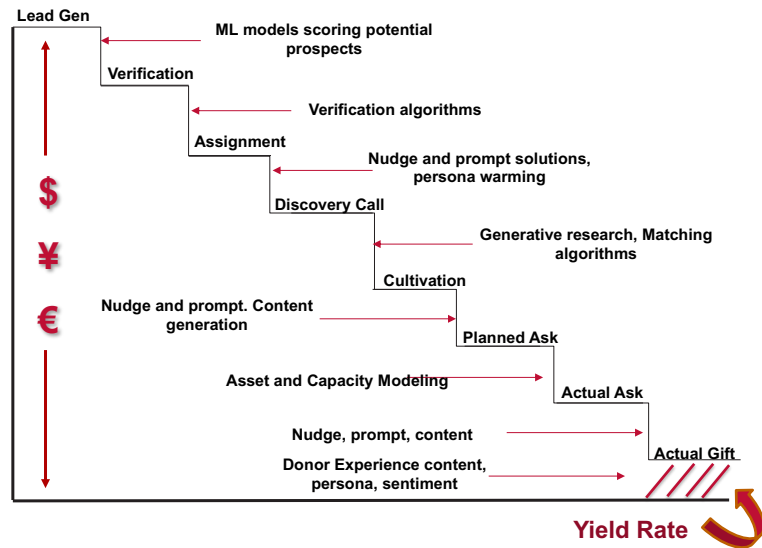

To

Static Modeling gave way to Automated Modeling

Applied to the Major Gift Pipeline

Deep Dive Example: Discovery Attainment

Business Problem:

Most identified prospects are unqualified, taking up space in portfolios, and distracting productive efforts.

- Slack in portfolios is poor stewardship of gift officer time
- Issues of prospect willingness and officer-effect

Ideal Outcome

Prospects are qualified and disqualified quickly so the most likely and able prospects are getting the most attention from gift officers.

Solutions

Most common to date

- Set expectations of time, attempts, and channels
- Sunsetting / auto-removal
- Large scale warming through marketing treatments
- Safety nets

Additional opportunities with AI

- Discovery and cultivation assist software nudge the interaction and prompt the text.
- Targeted warming based on ML sentiment and interest segment targeted to each constituent. Potentially using AI generated content.
- Ready flow of new names auto assigned post disqualification.

Matching

Donor
Persona to
Fundraiser
Persona

Deep Dive Example: Campaign Portfolio Management

Business problem

Need to reach all highly ranked prospects and cultivate them to a bold invitation to participate in the campaign.

Ideal Outcome

Gift Officers are engaged, prospects feel seen, reach of the team is maximized, campaign meets and exceeds targets.

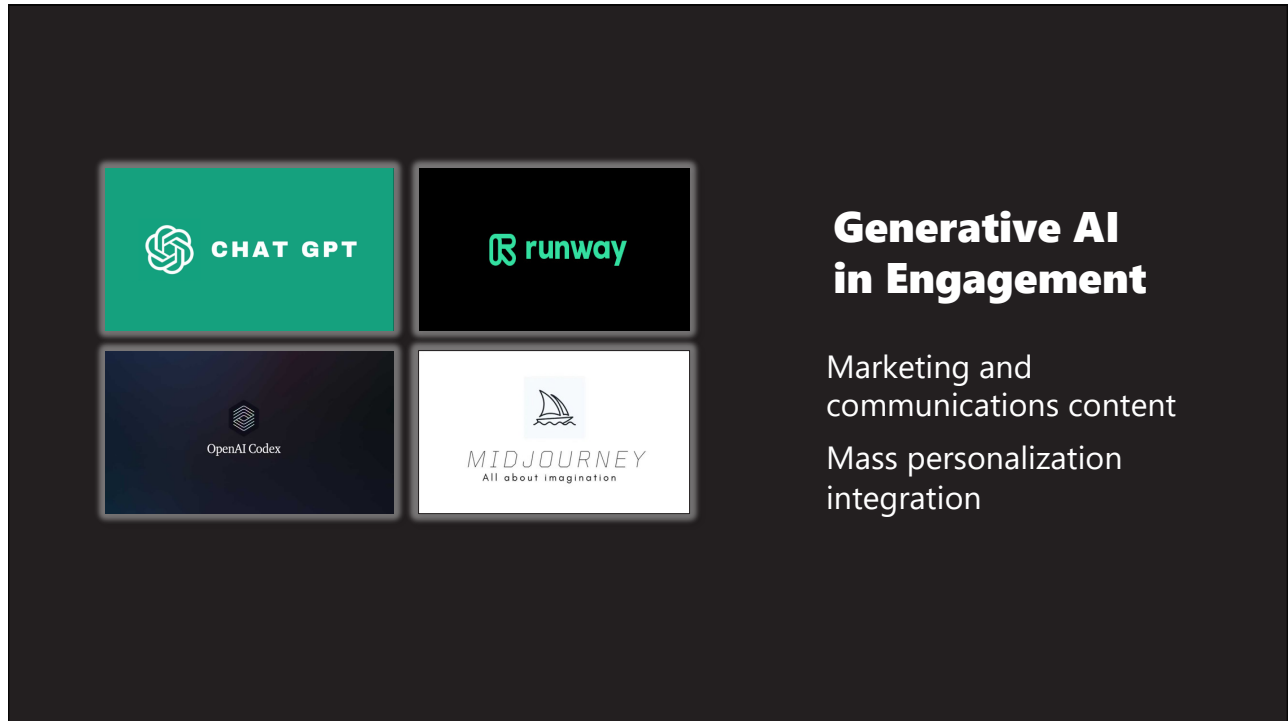

Solutions

Most common to date

- Regular portfolio clean-up based on qualitative review
- Activity metrics based on industry norms
- Motivating each other to perform
- Extending reach through adding staff

Additional Opportunities with AI

- Predictive analytics aligned to campaign priorities and donor likelihoods informing portfolio maintenance.
- Alignment-matching algorithms for prospects and officers (emerging)
- Metrics defined by dynamic measurements of success with calibrated scorecard weighting.
- Process modeling / cost-basis for optimal staff allocation.

1. 2021, I was excited to be accepted to George Washington University; however, I could only attend with sufficient financial aid. I received the Presidential Scholarship, which is why I am able to attend this respected university. I am so grateful for how long your faith is and hope I can assist future students in similar situations.
Celia Moore
SAS 2425

"The leadership support was essential to my GW experience. It helped offset the cost of tuition and provided programs and resources for the duration of my stay. The investment of time and resources made a difference in my life. They would not have been possible without the support of presidential donors."
Wanda Cole
AW 22

THANK YOU FOR BEING GW LOYAL!
Your support every year makes a difference every day for GW students like Claire, Wanda, Riva, and Beek.
And with over 17,000 members of the GW community, you have support from a large GW network to help you succeed in your studies and beyond.
Together, we can shape a brighter future for generations to come at the George Washington University.

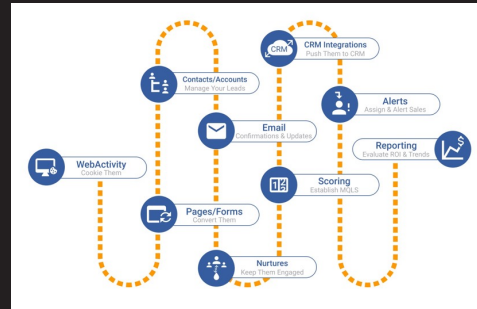

YOUR GIFT IN ACTION: WATCH THIS VIDEO
SHOW YOUR SUPPORT: MAKE A GIFT

As an international student at the GW School of Business, presidential support is not only a privilege, it is a necessity. It allows me to engage in academic and extracurricular activities and gain the knowledge and experience that will help me succeed in my career and life.
Beek Cooper
WYK 21 22

"Scholarship support affected my decision to attend GW. By knowing my school, this scholarship allowed me to attend a prestigious university and reap its benefits. Knowing these awards are made possible by presidential support has given me a deep appreciation and desire to give back to GW."
Riva Datta
DWH 16CA1 81 26

Building the Base of Support

- Creating dynamic segments and personas
- Marketing automation ranking and workflows
- Source and journey management

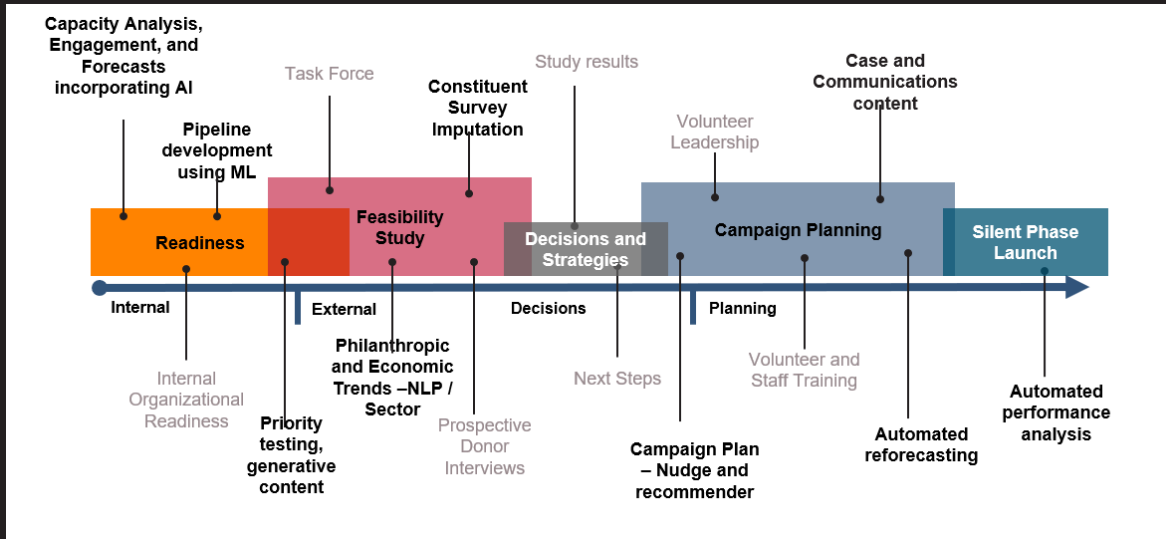

- Integrating personas with microsites
- Dynamic content generation or alignment
- Sentiment / engagement analysis and imputation
