

FLU - FREE

QUAD CITIES

## Vaccination is the single best way to protect you and your family against the flu.

With your help, Genesis Flu-Free QC (FFQC) will vaccinate as many as 9,400 elementary school kids and stop the spread of flu in our community.

It's estimated that for every child receiving the yearly flu vaccine, 5 other people are protected from the flu.

That's an important safeguard for those most at-risk of developing a serious flu illness – children under 6 months old who are too young to be vaccinated, grandparents, pregnant moms, and people with chronic diseases like diabetes, asthma and heart disease.

Please help us exceed our goal with your tax-deductible gift to Flu-Free QC. Your \$15 gift will vaccinate one elementary school-aged child and protect 5 other people from the miserable and sometimes serious seasonal flu.

**Our FFQC Campaign Chair, Terry Swails, has a gift for you, if you can help vaccinate 4 kids or more.**

Be watching the WQAD Flu-Free QC Telethon on Sunday, **October 16th** from 5 - 7 p.m. Listen for your name to be read in appreciation of your gift.

To make a gift online and to see a complete listing of our FFQC participating elementary schools, go to [www.genesishealth.com/give](http://www.genesishealth.com/give).

*Terry will send you his bobble-head and an autographed copy of his new book, "All I want for Christmas is to see a Tornado" (with your gift of \$90 or more).*
